erty Conditions Where Good Ore Is Exposed.

TONNAGE ON DUMP

Tunnel Is Following Copper Ore Deposit First Found by Drilling.

A report prepared by the Smokey Development company, of Ely, will be read with considerable interest by stockholders, and by the shareholders of the Fedcal Ely company whose territory adjoins that of the shookey, and whose own dethat of the Shockey, and whose own development likely will be materially affected by the Smokey results. The following extract frome the report will indicate conditions of interest.

Thereforement of ore on your property since the tunnel was started has been gratifying. You have about sixty acres of infreciplized norphyrs, in which the ore deposits of bits are found. The tunnel has been driven one-seventh of the distance across this area and shows commercial copper one corresponding to those in the operating mines of the neighborhood. There is every reason to expect this ore will continue for the remaining distance.

### Some Smelting Ore.

The drifts rust and west from the funnel are 140 feet long and show excelled ore, some of it direct-smelling
grade. The quality of the are denorit
in some property bids fair to measure
my to the standard of the leading mines
of the district.

In addition to the porphyry area, your
property is traversed for 1500 feet by the
contact between the promptyry and limestone. In which the producing mines find
fice copper ore, and the conditions on
representations of the district of the standard of the capes of the
mything of the kind in Edy. The conlast can be readily traced for 260 feet
and the exposures made show it from
plendid looking conper carbonates, which
indicate rich suipside smelling ores at
depth.
Seven drill holes were sunk, varying
in death from 115 to 280 feet, before the

# SMOKEY COMPANY STOCKS OF COPPER

Weeks of Thirteen Hundred Tons of Metal.

According to eastern reports received on Thursday morning, there was an increams of 1884 tons of copper to the forclear visible supply between December 15 and the Bret of the year. This would bring the total foreign stocks of copper on January 1, 1913, to 91.775,569 pounds, against 91.526.690 pounds on the last day of November. While this new year's surplus is, perhaps, approximate pending the receipt of the actual figures in pounds, it will doubtless be found very near the mark.

The foreign surplus for the past three

## Start Using Utah-Idaho Extra Fine Beet Sugar Today

It will be only a matter of a short time until you will not accept any other than Utah-Idaho Extra Fine Beet Sugar. Every day more bousewives are casting aside their preju-dice against beet sugar. The reason is they get su-preme quality for less

The best sugar made by the Utah-Idabo Sugar Com-pany is one of the foremost examples of what can be accomplished in quality and

purity. If you should go through their factories and see how Utah-Idaho Extra Fino Beet Sugar is made, you would say: "With everything so modern, and so spick and span, no wonder they produce such a high quality product."

If you are not already one of that great army of housewives who use Utah-Joaho Extra Fine Beet Su-gar—START TODAY. Re-member the name, and let your next order of suger

# PRINCE OUTPUT IN UTAH TALENT HAS ISSUES A REPORT ABROAD ARE BETTER DECEMBER WAS BIG - QUICKSILVER AREA

Ely Company Explains Prop-Increase During Past Two Two Hundred and Two Cars Deeds for Properties Thursof Iron Ore Were Sent to Smelters.

> The degree of usefulness to which the Prince Consolidated company has attained is illustrated by a message forwarded from Ploche on Thursday to the Salt Lake offices by Assistant Secretary when it is recalled that Christman with its demoralizing holiday intervened to

when it is resulted that Christmas with its demoralizing holiday intervened to handleap operations. If the cars referred to carried an average of fifty tons each, this meant a daily average of 375 tons of ore, but the quantity contained in the cars was not stated by Mr. Smith in his message. This tomage did not include any of the tailings at Buillouville.

The message added that the Prince property in every way was in splendid condition. There are unwards of 20,000 tons of iron ore broken in the various stopes awaiting shipment while the fissures and their ore are opening in a most gratifying manner. A car of fissures and their ore are opening in a most gratifying manner. A car of fissures and their ore are opening in a most gratifying manner. A car of fissures and their ore are opening in a most gratifying manner. A car of fissures are was forwarded to the local smelters on Monday. This ore carries much higher values than the tron ores of the property which occur in such enormous deposits in the beds, and the value of the entire product shows a very satisfactory increase in lead and silver values over the estimated averages of the several engineers whose assaminations and samplings of the mine preceded the deal whereby the knox interests acquired control of the organization.

In regard to the drilling operations from the fourth level. Mr. Smith wired that the hole was down about 187 feet, and that it is within about eventy-five feet of the first hed of the series of beds which will be tried out by this system of prospecting. The property is in even better shape today for production than during the past month, and January is expected to be equally as satisfactory, if not better, in an earling way.

day Passed to the Nevada Cinnabar Company.

A PRODUCER ADJOIN

Campaign of Development Is Planned to Place Group on Output List.

deeds for what is known as the Davis quicksliver properties in Nevada passed to R. J. Evans, and from him to the Nevada Cinnabar company, organized a few days ago by Utah capitalists for the purpose of developing and operating these and other quicksilver properties in the Sagebrush state. The stock of the Nevads Chnabar company is held entirely by the gentlemen composing the directorate, namely, F. A. Sweet, L. H. Curtis, L. L. Begg, R. J. Evans, F. J. Curtis, C. H. Riddle and G. I. Payne. The company is capitalized for \$1,000,000, in shares of \$1 par value each.

### Several Groups Merged.

The deal by which the various properties were accurred for this company was rounded out by Mr. Evans, and an effort was made yesterday to have him make a statement in regard to the organization and its plans, but he stated that nothing of especial importance could be released at this time. It is known, however, that in addition to the Davis group the Nevada Cinnabar company has acquired also the Shochone Quicksliver company's possessions and a group controlled by Frank Davis, giving the company a total area of about 50 seres of splendidly mineralized ground.

While a considerable amount of development work has been accomplished on these acres, the officials evidently feel that they should round out the exploratory campaign as outlined before taking the world too intimately into their confidence. It is of interest, however, to note the endeavor of Utah mining men and capitalists to open in Nevada what is one of the most attractive mining propositions available, for mining for quickslive is one of the most remunerative branches of western mining, owing to the scarcity of this mineral.

### FORTUNE WAITS FOR LOST IDAHO MINERS

SPOKANE, Wash., Jan. 2.- Four men he dropped from sight in the Spokane ountry several years ago are being sought by directors of the Tamarack &

sought by directors of the Tamarack & Chesapeake Mining company.

The four men have an aggregate of 7359 shares of stock in the mine, which they secured when the property was but a prespect whose stock went for from 3 to 6 cents a share. Today it is bringing \$1.55 a share, making their holdings worth \$11.347.59.

Patrick Turley, H. L. Stodard and A. L. Humphrey were miners in the couploy of the company and took stock for their wages on a hasts of 5 cents a share. In this way Turley secured \$259 shares, now worth \$8557.59, and Stodard and Humphrey took 1969 shares aniece, making the value of the holdings of each \$1559.

F. E. Hemenway, the fourth man, bought 1960 shares at 5 cents while employed as a cab driver in Spolane. His is now worth \$1559.

Ore and Bullion. The ore and bullion report for Thursday, given by McCornick & Company, was as follows: Ore received, \$75,000; bullion shipped, \$42,000; total, \$117,000.

With the New Year we desire to introduce to you our new manager, L. K. Reynolds, who in the past has been selling Pierce Arrow Automobiles. As he made a success in that, we think he will be able to go fast enough to sell a few tons of coal.

### FISCHER-KITTLE COAL CO.

"We sell coal for a reputation as well as for a living."

Office 277 So. Main Street Tel. Ex. 401

market. To clean up and n for new stock, we offer for p the following list of clothbooks. As we only have a fe of some titles, come early, for the long winter evenings,

The Call of the Heart. Double Trouble. Ishmael. Self Raised. Hard Pressed.

Little Brother of the Rich. Her Lord and Master Her Husband. Prize to the Hardy. Pretty Madcap Dorothy. The Loan of Love.

Durk Marriage Morn. Fortunes of Fift. Mysterious Mr. Sabin. Bob Covington. Apple of Discord

A Wasted Love.

And many others.
